The soul is gendered male or female. Each soul has 1 twin-flame (husband/wife archetype) of the opposite gender. Additionally, each soul has multiple soulmates (boyfriend/girlfriend archetype) of the opposite gender.

Any past life memories of having lived as the opposite gender are usually memories of either your twin-flame or one of your soulmates. You are always psychically connected to your twin-flame and soulmates to a certain degree (wherever they may be in the Universe of Wholeness), and through their experiences is how you are able to learn about experience as the other gender.

Homosexuality is a temporary learning experience for humanity in the process of spiritualizing matter. In fact, the very existence of homosexuality is evidence that humans seek romantic love that surpasses the biological desire for reproduction. Eventually however, homosexuality will cease to exist in the ultimate expression of human society because each soul will desire to be reunited with their soulmates and twin-flame.

In the process of spiritualizing matter (and materializing spirit), the soul is learning how to integrate romantic soul love (spirit) with biological attraction (matter). This is the integration of the heart chakra (love) with the sacral chakra (sex).

Since the fall of Atlantis up until now (2025), the surface societies of terra-earth have been some of the furthest removed from Source Reality in the multiverse, where matter is seemingly more dominant than spirit (although spirit always ultimately prevails):

This is why humans will often follow their biological attraction first and romantic soul love second:

<https://channelings.substack.com/p/tunia-attraction>

This is essential to the survival and procreation of the human species. However, when societies progress out of survival mode (matter) toward a public Utopia (spirit), humans are no longer bound by survival procreation (matter) and are able to pursue romantic soul love (spirit) integrated with biological attraction (spirit—>matter). This will eventually lead to each soul reuniting with their twin-flame within physicality.

Ultimately each soul will be most content being with and romantically/sexually attracted to their twin-flame. The twin-flame relationship under God is true love, and it does exist. It is where you feel most at home. It is the closest relationship you have in tandem with your relationship with God.

Swedenborg discusses marriage love in heaven, which is an accurate description of the twin-flame relationship:

In Chapter 18 of *My Life After Death*, Erik Medhus discusses a spirit relationship with a girlfriend on the other side:

IntergalacticMatch.com by Michael Ellegion & Celeste is an initiation for lightworker-starseeds to connect to their twin-flames residing in the higher dimensions and aboard the motherships of the Galactic Confederation:

Twin-flames aboard motherships is also discussed by Eric Klein in chapter 1 of *The Crystal Stair*:

Cobra (2012 Portal) discusses the importance of sensual, sexual Goddess energy and the importance of Soul Love between men and women:

The Ascension Glossary (Lisa Renee, Energetic Synthesis) discusses the Gender Principle in the twin-flame relationship:

Godfré Ray King had many lifetimes with his wife and "Twin Ray" (twin-flame) Lotus, as he was shown by Saint Germain in *Unveiled Mysteries*:

Western, significant-other relationships would be more harmonious and synergistic if people incorporated tantric teachings (including meditation and bandhas):

Human society on terra-earth will thrive like it does in the Pleiades when hero (noble masculinity) and goddess energy is restored:

To inspire the energy of soul love, here is the second poem ("Spiral") of Chamber 23 of the WingMakers time capsule (from the original www.wingmakers.com, Internet Archive Wayback Machine save January 25th, 1999):

Spiral

Inside there is something gnawing
with silken jaws and wax teeth.
It holds me still in pureness
like a circle whose middle is my cage.

While you went away from me
I was ever tightening my circle.
A spiral cut in glass.
A flower's bloom dropping petals.
A winnowed ball of yarn
spilling color.

I see the inside of your thigh
brilliant in its smoothness,
and I spiral ever closer to your edge.
Paper cut touching I burn
bleeding without pain.
How could I spill so easily
without knowing why?

When I hear your voice
there is no quenching this ache
to hold you.
Like one who draws near and then forgets
the story they came to tell,
I circle you waiting for thread's tautness
to draw us ever closer
though I know not how.

The final luxury is the kiss
of your boundless heart.
The final beauty so pure
all else limps behind blissfully in your wake.
Drawing from your shadows
the light of saplings
lurking on the forest floor.

If I could unbutton you,
take your dress down
I would see a map of my universe.
A phantom limb, grown from
my body like wings sprouting from a chrysalis
reaches for you.
It is the hand of clarity
desperate for your skin
so powerfully bidden
as though a shimmering block of light
cut from black velvet,
stood before me.
And all I could do was to reach out
and touch it,
not knowing why,
but utterly unafraid.

Here is music that I like (linked through OLIN) that inspires soul love:

Digital Love - Daft Punk
